Intel will reportedly upgrade its Wildcat Lake refresh to an 8-core config next year, leak claims — top-end silicon tipped to feature 4 P-cores and 4 LP-E cores as part of 'Core 400' series

INTEL'S WILDCAT LAKE REFRESH that's supposedly debuting next year will shift focus to a more upmarket audience, only refreshing its Core 5 and Core 7 tiers. The new silicon

at the top-end would feature 8 cores, up from 6 cores on Wildcat Lake right now, with the 4 P-cores and 4 LP-E cores. The Core 3 parts are claimed...

Nvidia is reportedly still planning fabled RTX 50 Super series for 2026, leak claims — lineup could now include a potential 'RTX 5060 Super' with 12GB of VRAM

For almost a year, the RTX 50 Super series has been part of the rumor mill, but with the AI boom snatching production lines, causing memory prices to skyrocket, hype for the lineup had died down. Now, a potential RTX 5060 Super with 12GB of VRAM is apparently in the works, with the 50 Super series as a whole allegedly...
