Nintendo's latest Switch 2 update adds VRR support in TV mode

NINTENDO ALWAYS PROMISED THAT the Switch 2 would support variable refresh rate (VRR) when docked, but the console launched without this key feature. A new 23.0.0 firmware update

now adds VRR support to the Switch 2 when it's docked and in TV mode. VRR adjusts a display's refresh rate to match a game's frame rate, [...]

Can the US battery market untangle from China?

The US is hitting records for the rapid growth of its energy storage market. That'll go a long way to shoring up the grid, increasing reliability and also cutting emissions, since batteries can help store energy from intermittent renewables like wind and solar. Crucially, this is all happening with the help of cheap...

IETF Publishes RFC 10008, Adding the QUERY Method for Safe Requests With a Body

In June 2026, the IETF published RFC 10008, introducing the QUERY method to HTTP, the first new standard HTTP verb since 2010. QUERY enables developers to send richer query filters in the request body while maintaining cacheable, safe, and idempotent semantics. This addition addresses long-standing limitations with...
