Pomera’s sleek distraction-free writing machine is just too small

POMERA'S DIGITAL TYPEWRITERS ARE a cult hit with those craving a distraction-free writing experience. Dedicated word processor devices never caught on in the US the way they did in Japan. And the ones available in the US, like the AlphaSmart Neo, just weren't as sleek and portable as the tiny foldable devices from…

⚡ Weekly Recap: SSHole Exploited, APT Root RCE, Robot Takeovers, 15K Hacked Sites, and More

A system doesn't always need a complicated bug to let someone in. Sometimes, a blank password is enough. That's one of the bigger stories this week. And it gets worse when the tools meant to keep systems updated or running safely become part of the attack. Elsewhere, attackers are hiding inside normal web traffic...
