Acer is bringing a Predator gaming handheld to the US for the first time

It's been several months since Acer unveiled its Predator Atlas 8 gaming handheld, but now we finally know that it's coming to the US, and how much it'll cost. The Intel Arc G3 Extreme variant - the more powerful of the two models announced in May - will be available exclusively at Best Buy on [...]

Australia Gets Into Amadey Malware Backend, Cuts Off Access to 180,000 Infected Computers

A criminal using the Amadey malware can no longer access or steal data from 180,000 infected computers around the world, including some in Australia, the Australian Signals Directorate (ASD) says. The agency's operators gained access to the criminal's operation's backend and cut it off from those computers. "The next...
