WWDC 2026: Everything announced on Siri, iOS 27, Apple Intelligence and more

APPLE'S WWDC 2026 EVENT kicked off this morning at 10 a.m. PT at Apple Park, starting a week full of expected announcements around Siri, iOS 27, Apple

Intelligence and more, along with developer events and demos. This year's event is particularly notable for a couple things. It marks CEO Tim Cook's last with the...

NotebookLM's Gemini 3.5 upgrade adds a cloud computer and help finding sources

Google is rolling out "across the board" updates to NotebookLM. The AI-powered note-taking app now uses Google's upgraded Gemini 3.5 model, which will allow it to respond with "more accurate and reliable information," according to a blog post on Monday. Launched in 2023, NotebookLM allows you to interact with your...
