The Download: Silicon Valley’s blind spot and Nvidia’s chip-tracking plan

THIS IS TODAY’S EDITION of The Download, our weekday newsletter that provides a daily dose of what’s going on in the world of technology. Silicon Valley claims to know the future. So why did it get the midterms so wrong? —Aaron Zamost, a tech communications consultant and a former executive at Square The self-styled…

Let’s talk about Jensen Huang’s many affairs!

Usually, we'd be offering to answer your questions about a news event, but honestly we don't really have any answers about what the hell is going on over at Nvidia. I can't speak for Nilay but at the rate Jensen Huang's new mistresses are dropping, I am concerned we are approaching an affair Singularity. If […]

Apple should have made the MacBook logo RGB

When Apple CEO John Ternus announced the first touchscreen Mac last month, the biggest reaction in the room wasn't for the PROLED MacBook Pro's OLED touchscreen or the thinner and lighter chassis; it was for the illuminated lid logo. It's a throwback to the light-up logos on the old MacBooks, which Apple started...
