The Download: a humanoid cleans house and Samsung builds for the AI boom

THIS IS TODAY'S EDITION of The Download, our weekday newsletter that provides a daily dose of what's going on in the world of technology. I watched a humanoid robot clean my apartment. It felt like a taste of the future. —Grace Huckins When I saw an X post about a new humanoid-robot cleaning service in…

Microsoft Paint RCE Fix Now Available, but Windows Update Won't Deliver It

A fix for CVE-2026-83844, a remote code execution flaw in Windows Paint, is now in the Microsoft Store. Paint gets this fix only through a Store update, not through Windows updates. The fixed build, 11.2609.401.0, was the newest Paint build in all ten countries The Hacker News checked today. The flaw is an...

Malicious Browser Extensions Could Use Claude Dispatch to Run Code on Users' Computers

A browser extension that can run scripts on claude.ai could make Claude Desktop run code on a person's computer, researchers at Forever Security, an endpoint security company, showed in a test. The attack needs Dispatch, a Claude feature that lets people send tasks from their phone to Claude Desktop. The flaw that...
