Anthropic claims that China's Alibaba used 25,000 fake accounts and 28.8 million exchanges to illicitly 'distill' its Claude model — violations occurred from April to June 2026

AI TECH GIANT ALIBABA, often considered as the Amazon of China, is being accused by Anthropic for using Claude to train its

AI models. The American AI startup claimed that it traced over 25,000 accounts to operators that were affiliated with Alibaba and Alibaba Qwen.

Steam Machines will only come with one 16GB stick of RAM — company may change this to two 8GB sticks in the future, but the first batch of consoles is limited to single-channel memory

Valve confirmed to Gamers Nexus that the first batch of Steam Machines will only have one 16GB RAM stick. This would have a negative effect on the console's performance, but the company likely did this to keep its price as low as possible, or because it's the only available option left for the company.
