AI Agent Uncovers 21 Zero-Days in FFmpeg; Chrome Patches Record 429 Bugs

Two things landed within days of each other this week. A security startup reported 21 previously unknown vulnerabilities in FFmpeg, the media library inside almost everything that touches video, all of them found by an autonomous AI agent. The same week, Google shipped Chrome 149 with patches for 429 security bugs...

AMD reaches almost 45% CPU share in the latest Steam Hardware Survey for Windows gaming PCs — Ryzen is steadily gaining ground against Intel's legacy domination

The latest Steam Hardware Survey is out and it's showing positive signs of growth for AMD, while Intel is unfortunately on a decline. The Red Team posted its best-ever CPU market share numbers in May 2026 with 45% of all CPUs on Windows being from AMD, while Intel is down to 55%, which is still more for now.
