Zone Redundancy Comes to API Management Standard v2

Microsoft has enabled zone redundancy on the Standard v2 tier of Azure API Management, following its arrival on Premium v2 in December. Standard v2 starts at \$700 per month against \$2,801 for Premium v2, but carries a 99.95% SLA rather than 99.99%. Zone redundancy can only be configured when creating an instance. By...

Flea market shopper uncovers \$1,500 worth of Samsung SSDs inside a \$30 expansion card — Three 2TB 980 Pro drives were hidden beneath an Asus Hyper M.2 heatsink

An extremely fortunate bargain hunter in Kuwait found three Samsung 980 Pro 2TB SSDs slotted inside a \$30 PCIe expansion card. Each of those drives is worth between \$400 and \$500, so it's clear to say the thrifter struck gold during an AI rush.

N-able Issues Fourth N-central Hotfix in Five Weeks for Unauthenticated RCE Flaw

Every on-premises N-central build below 2026.3.1.14 — including servers updated to Hotfix 3 a day earlier — needs Hotfix 4. N-able's incident notice says the flaw has been exploited in the wild; its release notes say that is unconfirmed. N-able has released its fourth hotfix in five weeks for the N-central remote...
