Save hundreds on a TCL mini-LED TV with quantum dots and high refresh rate

AMAZON AND BEST BUY have the TCL QM7L mini-LED TV on sale for as low as \$797.99 for the 55-inch model, a \$200 discount from the usual price.

We spotted scaling discounts on larger sizes as well, although Amazon already listed low stock on the 65-inch version. While OLED televisions are great for deep black [...]
