How LinkedIn Trains AI Job Search 8x Faster with Multi-Teacher Distillation

LINKEDIN HAS PUBLISHED DETAILS of the training infrastructure behind its AI-powered job search, describing a multi-teacher distillation

pipeline that compresses knowledge from large teacher models into a compact 0.6B-parameter ranking model. By Claudio Masolo

Attackers Chain JFrog Artifactory Flaws to Gain Admin Control and Plant Backdoors

Attackers have chained two flaws in JFrog Artifactory, the repository that software build pipelines pull from, to take administrator control of self-hosted servers and plant backdoors, cloud security company Wiz said in a report. Wiz saw the attacks between August 15 and September 8. JFrog had fixed both flaws before...
