Microsoft-backed AI data center faces backlash over 62 unpermitted gas turbines and 1.5M-gallon LNG tank — issues with \$19.4B facility range from illegal construction to noise pollution

THE COMMUNITY SURROUNDING THE

DataOne data center in Vineland, New Jersey, are complaining about the Microsoft-linked project. The company's deployment of several unpermitted

gas turbines is just one of the issues that has been hounding the project, with potential water issues also surfacing in recent weeks.
